Subject: Fw: fyi - Craig Sevens Call

Den/Jerry,

I raised this in the update call with Jerry yesterday and he asked that I do some checking to see the source of this information..

I too got a voice mail from Craig Stevens regarding the group Enough is Enough. He attributed the information to Craig Sautner. I also had a conversation with Mr. Sautner regarding this issue also. I told Mr. Sautner that the group is not interfering with our investigation from their activities, but if it got to the point where they would show up at locations where we would be sampling that might be a different story.

The ERRS foreman on site also heard of this activity, again attributed to Mr. Sautner.

My sense is that Enough is Enough is exercising their right to free speech and those who don't want to hear can act accordingly.

We will continue to keep on top of the situation, especially if things change.

Rich

Just in case you're not aware of the group going door-to-door trying to persuade people to say NO to us sampling. See email chain below.

Trish

Hi Mike,

Thanks for letting me know you talked with him. He left a similar msg on my cell phone re: organized group supposedly going door-to-door telling people not to let us sample. His question to me was about the legality of their actions.

Wondered if they were interfering with an ongoing "criminal investigation". I have not talked with him yet.

Alex Mandell is the CIC in the field today. I'll ask Helen if he mentioned anything about this group in his report-out.

Thanks.

Subject: fyi - Craig Sevens Call

Trish,

Wanted you to be aware that Craig Stevens called me today on my cell phone while I was out of the office. He told me that he left you a voice mail as well. He's concerned about a group of citizens that supports Cabot and is going door-to-door to tell residents to not let EPA in their homes and to sign a petition against EPA.

He's concerned that they may sway some people against getting testing, etc. I told you Mr. Stevens that EPA would continue to do our communication/education of residents and it is ultimately up to residents if they allow access to us. Just wanted to make sure you're aware of my communication with Craig. Not sure of the accuracy of Mr. Steven's account and whether you've encountered any from the group supporting Cabot.

Mike
